Start applying for a UK all tier (1, 2, 3, 4 and 5) now via the FREE Assessment by filling online form.

The tier 4 Student UK Visa replaced the previous UK Study Visa system. It allows an adult student to study in the UK with a licensed sponsor on the Tier 4 register of sponsors and embark upon a course of study.

See the guide to Tier 4 registered sponsors.

Benefits

The Tier 4 Student Visa service offers overseas students the opportunity to gain recognised qualifications from reputable and government approved universities and colleges in the UK.

Study Abroad at a UK educational institution and you will be embarking on a life-long journey, where the skills and experience you learn in the UK are recognized the world over in industries such as business, hospitality, IT, accounting, commerce, science, technology and government.

The tier 4 Student Visa does not constitute a route to settlement or indefinite leave to remain, however, a visa for student immigration may allow you to switch to another UK

immigration service without leaving the country, upon successful completion of your course.

However, the benefit of studying in the UK under a visa for students is that you will also be permitted to undertake limited employment and extend your visa if your course of study lasts longer than 4 years.

Duration

This type of UK visa is granted for the period of your course.

If you are studying at degree level or above, you can stay for the full duration of your course, up to four years.

If your course is longer than four years, you can apply for a UK Visa Extension to finish your course.

If you are studying below degree, your Student Visa will allow you to stay for up to three years.

One route for staying in the UK beyond a course of study, is through switching to a Tier 2 Work Permit. You will require a specific offer of employment from a British company.

visa world solutions can prepare adult students to make informed decisions about their futures through our Study Abroad service for students. We provide comprehensive resources, programs and counselling on career development and visa applications and have access to a wide-range of partnerships with universities, educational institutions, and administrative departments.

Eligibility

The new student route under the points based system introduces five key changes to the current system. Adult students applying to study abroad in the UK must:

- Have a proven track record in studying before coming to the UK.
- Have recognised qualifications equivalent to National Qualification Framework (NQF) in the UK education system.
- Produce evidence of sufficient funds to pass a maintenance test.
- Produce documents used to obtain an offer from the university or college sponsoring, such as qualification certificates.

To be able to travel to the United Kingdom as a general student after the end of March 2009, adult students must pass a points-based assessment and meet the minimum points requirement.

A visa letter from the education provider is most important in the points-based assessment process, while showing proof of maintenance fees to cover course fees and living expenses will also contribute to the points tally.

What is a visa letter?

It is an offer letter from your education provider who is your immigration sponsor, including information about you, your sponsor, the course, and your finances.

What is a licensed sponsor?

The licensed sponsor is the university or college you have chosen to enrol with. Global Visas have extensive partnerships with many schools, colleges and universities on the tier 4 register of sponsors. Find the tier 4 licensed sponsor list [here](#).

Can I work?

Unlike a UK visit visa, or travel visa application, applicants for study permits may take part-time or holiday work but must not engage in the following:

- Work for more than 20 hours a week during term time (except in vacation periods), unless it is a work placement and part of a study program and the educational institution agrees.
- Conduct business, be self-employed, or provide services as a professional sports person or entertainer.
- Work full-time in a permanent job.

Depending on what you have studied, if you want to stay on in the United Kingdom once you have successfully got your qualification, you may be eligible to switch to the Tier 1 - Post-Study Work visa.

Can you bring your family?

This page explains whether and how you can bring your family members (also known as 'dependants') to the UK while you are here as an adult student under Tier 4 (General) of the points-based system.

Your dependants are:

- your husband, wife, civil partner, unmarried partner or same-sex partner; and
- Your children aged under 18 years old.

From 4 July 2011, you **cannot** bring your dependants to the UK **unless** you are:

- sponsored by a higher education institution on a course at NQF level 7 or above which lasts 12 months or more; or

- A new government-sponsored student following a course which lasts longer than 6 months.

If your dependants are already in the UK with permission, they will be allowed to extend their stay provided they apply at the same time as you apply to undertake a course of study lasting more than 6 months.

Dependants must apply under the rules for points-based system dependants. You can download guidance from the right side of this page.

Children born while you are in the UK

If you have 1 or more children while you are in the UK, you can apply for their permission to stay in the UK. You must complete the dependant application form and send a full UK birth certificate showing the names of both of the child's parents.

More information

- How much money will your dependants need to show?
- How to apply from inside the UK
- How to apply from outside the UK

<http://www.ukba.homeoffice.gov.uk/visas-immigration/studying/adult-students/family/>

Spouse immigration is only permitted for married partners and unlike a Fiance visa or UK De Facto visa, often known as an unmarried partner visa, your common-law or conjugal partner is not allowed to join you.

Married partners will be granted leave to remain for a period equal to that granted to the student. During this time, they must be able to support themselves either independently or with the help of the applicant. Find out further information on our Tier 4 Register of Sponsors page.
